# ceramic mugs

Printed promotional mugs have rated consistently amongst our best sellers for well over 10 years.

Why, you ask? Because they print up beautifully, last forever (well nearly!), are highly visible in the office and home (sometimes in piles in the kitchen), and once someone in the office or home chooses your client's printed mug as their favourite, it will be loved, cherished, and used exclusively for many years.

Seriously though, mugs are an integral part of our lives, so they are quite simply a wonderful way to promote your client's business. Printed mugs are very cost effective and we print them in our own workshop so you can be sure of a fantastic, long lasting result of which you will be proud and your bottom line will be thankful.
